THE INDIANA TRUST CO

OFFICE-23 S. Meridian.

The prudent investment, as well as the safe management of funds are ever present necessities for the encouragement of thrift and industry, by preserving their fruits.

It is easier to get than to hold. Often those who are in the way of accumulating have difficulty in disposing of the results to the greatest advantage.

THE INDIANA TRUST COMPANY offers wide facilities to the best investment of all kinds of property. It receives deposits of money in any sums, for time specified, and

pays interest thereon. It gets the safest returns from all kinds of property by placing them in channels of investment best suited to

The liabilities of its stockholders -added to its capital-make a sum of \$2,000,000 pledged for the faithful discharge of its trusts.

SPECULATION WEAK

MOST OF A SMALL DAY'S BUSINESS CONFINED TO INDUSTRIALS.

Much Conjecture Concerning Atchison Reorganization Scheme-Indianapolis Wheat Lower.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 2%@41/2 per cent. Sterling exchange was dull but firm, with actual business in bankers' bills at \$4.88% for demand and \$4.87%@4.87% for sixty days; posted rates, \$4.881/2@4.90; commercial bills,

Silver certificates, 64@65c. Bar silver closed at 62%c per ounce; at London, 28%d. Total sales of stocks amounted to 117,158 shares. It was announced last week that the Atchison reorganization plan would be perfected yesterday and the full details made public. The committee were in session in the afternoon, but did not reach a final conclusion and deferred the publication of the scheme of reorganization until to-day. It is understood that the committees are in harmony with the New York committee and that all interests are taken care of in the plan which has already been foreshadowed in this report. The street is anxiously awaiting the publication of the

plan in view of the fact that there are other reorganizations still pending for which the Atchison scheme might serve as an example to be followed in some particulars. There was a halting, unsettled tone to the speculation on the Stock Exchange, as if the operators were waiting for something to turn up. Nearly half the business done was in the industrials, the only active shares of the railway list being St. Paul and Burlington & Quincy. The engage-ment of \$2,000,000 in gold for shipment for Europe by to-morrow's steamer had no effect on the market, the gold being sent merely by reason of the scarcity of bankers' sterling bills, and it does not change the views of the leading bankers who believe that July will see the end of the gold export movement. The arbitrage houses were not in the market to any appreciable extent, and the tone of American securities on the London Exchange was not encouraging. Chicago was a seller of St. Paul and the bull clique was a buyer of Chicago Gas. Sugar opened at an advance of % and under moderate buying rose an additional % to 99%. The higher range of values induced sales to realize profits and a reaction of 11/4 took place, of which % had been recovered at the close, making a gain of % on the day, the preferred recording a similar improve-ment. Chicago Gas was in good request by brokers of the clique, which has been bulling the stock of late, and despite the rather free offerings, the shares advanced with occasional slight reactions 11/2, reacting 1/2 at the close. The unexpectedly heavy decrease in the earnings of St. Paul for the second week of June led to an attack on that stock, which fell off %, only to make a complete recovery under supporting orders, the closing price being within 16 of the best figures of the day. Burlington & Quincy, after an early de-cline of %, rose %, and reacted %; Rock Island shows an advance of ½ and North-west stands unchanged. Union Pacific was weak in the early dealings and receded 1 per cent, on the report that Attorney-gen-eral Olney had decided to commence proceedings to secure payment of the govern-ment debt. On the denial of the rumor from Washington a recovery of 1/2 was made. Alton & Terre Haute shares were

noon and closed irregular. Changes were: Declines-Toledo, Peoria & Western firsts, Atlantic & Pacific fours, 1%; Northern Pacific, 14: People's Gas of Chicago seconds, I per cent. Advances—United States Cordage firsts, 14: Alton & Terre Haute lividend bonds, 1: Wisconsin Central firsts sold at 60, against 1 on May 16; Peoria, Decatur & Evansville firsts sold at 864. against 82 on May 19.

very strong, the common stocks advancing 11/2 and the preferred 171/2. The improvement in these securities is due to the

rearrangement of the debt of the com-

pany on a basis which it is expected will

bring the common stock into the dividend

paying list. Denver & Rio Grande, preferred, declined 1% and Pittsburg, Cleve-land, Chicago & St. Louis 1 per cent., the other changes being fractional. At the

ing, became unsettled during the after-

nrm in the morn

close the general market was firm.

Government bonds were firm. State bonds were inactive. The following table, prepared by James E. Berry, Room 16. Board of Trade, shows the

LOCAL GRAIN AND PRODUCE. Trade Fairly Active and Prices Unsettled.

The week opened with a fairly active trade on the wholesale streets and on Commission row. A number of changes will be noted in dry goods, fruits and vegetables. Oranges and lemons are scarce and higher, poultry was weaker, eggs steady. Butter selling slow unless choice. Sugar steadier and coffees firm. Receipts of wool are large and prices steady, but low. The provision market is active, prices in most descriptions of hog products steady. Receipts of hogs are larger as the season advances. The local grain market was less active than on Saturday. Wheat advanced 1/4c.

WHEAT JUMPED UP 3C

CROP DAMAGE REPORTS FROM FOR-EIGN LANDS A STRONG FEATURE.

Surprisingly Large Decrease in the Visible Supply Also Helped to Bull Prices at Chicago.

CHICAGO, June 18 .- Crop damage reports from foreign lands and other bullish news shoved wheat up to-day and July closed 3c higher, after a 3%c advance. Corn closed %c higher for July, oats finished %c higher for August and provisions closed at a slight advance.

The wheat market ruled decidedly better on account of a decrease on ocean passage and a larger reduction in the visible than expected. There were good buying orders on hand at the opening, some for foreign account, both for cash and futures, and for local shorts, who, having anticipated a still further break to-day. were induced to cover. A press cable reporting the crops in Austria and upper Hungary damaged by frosts and snow, and private advices quoting Berlin and Antwerp closing strong on bad weather, created an active demand. Another Berlin cable reported the market excited on bad weather. The decrease on passage, according to Beerbohm, was 2,128,000 bushels, and the India shipments were report-ed at 380,000 bushels. The visible decrease was 1,160,000 bushels. The spread between July and September widened to 2½c early and later narrowed to 1%@2c under active demand for the former. The market opened %c higher, and after advancing 34c reacted %c, closing firm. The elevator people were large buyers. Corn was active and stronger, with 11/2c

range. Covering by shorts and strength in wheat were the factors. Oats were firm with wheat. The range for July was %c. Provisions were very dull, but firm on the action of wheat. Compared with Saturday night, September pork is 5c higher, September lard .02½c higher and September ribs .05c higher. The inquiry for vessel room was fair.

Rates steady at 14c for wheat and 1c for corn to Buffalo. Charters for wheat to New York at 4c. Estimates for Tuesday are: Wheat, 44 cars; corn, 426 cars; oats, 146 cars; hogs, 17,000 head. Leading futures ranged as follows:

VISIBLE SUPPLY.

Grain in Store as Reported to the New York Exchange. NEW YORK, June 18 .- The visible supply of grain Saturday. June 16, as compiled by the New York Produce Exchange, is as follows: Wheat, 57,106,000 bu, a decrease of 1,105,000; corn, 7,077,000 bu, a decrease of 437,-000; oats, 7,517,000 bu, a decrease of 247,000; rye, 240,000 bu, an increase of 34,000; barley,

85,000 bu, a decrease of 2,000. British Grain Market. LONDON, June 18. - The weather last

dition is fair. The wheat market last week was not active, but it was firm. Although part of the advance was lost, prices were fully as high and 6d better. Some of the purchasers were buying in order to cover. La Plata wheat attracted attention and Indian wheat is coming on the market. White wheat for shipment was not offered and was scarce. Near at hand California cargo to arrive was quoted at 12s. Red winter parcels, June and July delivery, were quoted at 21s 3d. Flour was steady, with moderate inquiry, at 6d to 1s advance. Maize was fairly active at 6d higher, became quieter and is now firm. Mixed American parcel, arrived, was quoted at 17s. Bar-ley was firm at 3d up. Oats steady with fair inquiry.

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia,

Baltimore and Other Points. MINNEAPOLIS. June 18.-The wheat market was strong and active to-day, open-ing 1/2c higher and advancing later 1%c for July and 1½c for September. Closing prices were: June and July, 62c; September, 63c. On track: No. 1 hard, 64c; No. 2 Northern, 61¾c. Receipts of wheat for the day were 143,220 bu; shipments, 27,300 bu, making another decrease in the local supply of wheat of about 30,000 bushels, as local mills were grinding about 150,000 bushels in the twenty-four hours. The flour market was dull and higher, as millers advanced their quotations, in sympathy with the advance in wheat. Production estimated at about 34,000 barrels; shipments, 36,363 barrels; quoted at \$3.40@3.60 for patents; \$2.10 @2.40 for bakers'. More inquiries came later in the day after the advance indicating an increasing interest in the flour situation. The Market Record reports a decrease of 56,945 bushels of wheat in local private elevators, leaving the private stocks here now 788,834 bushels. It also reports a decrease of interior elevator stocks of 103,000 bushels. in the large lines of elevators and 75,000 bushels estimated decrease in the smaller lines, making a total decrease in interior elevators of 178,000 bushels for the past week. Minneapolis receipts of wheat last week were 906,770 bushels, against 916,000 bushels in the same week last year. Public

elevators in Minneapolis decreased 46,153 bushels, making a local decrease of 102,000 bushels for the week. The total supply in Minneapolis, in both public and private ele-vators, is 10,285,000 bushels, against 12,177,000 bushels one year ago. The stocks of wheat in interior elevators a year ago were 4,300,-000 bushels, which would make the interior and Minneapolis supplies together nearly 4,000,000 bushels less than at this time last year. Farmers marketed last week in the Northwest about 125,000 bushels daily. A lighter movement from granaries is expected this week. PHILADELPHIA, June 18.-Flour-The market ruled firm in sympathy with the advance in wheat, but jobbers were generally well supplied and the demand continued light at unchanged prices. Rye flour is quiet but firm at \$2.85 per brl for choice Pennsylvania. Wheat—The market

was strong and advanced 3@34c on the decrease of 2,100,000 bushels in stocks on passage to Europe, strong cables, good speculative buying, largely on foreign account. Colman's Rural World. There is no better sheep food than peas and about as many peas can be grown on an acre if mixed so as to be half oats. as when grown alone, and as oats will in ordinary years hold the peas up so they can be cut with a mower, it is better to mix them in the proportion of two businels of the small Canada field pea to one bushel of oats, choosing a kind of oats with pretty stiff straw. The best way to prepare the ground and sow the peas is to use good land. Corn stubble, if one has it, is best, but if sod ground is used have it fall plowed or plowed as early in spair. as possible, and, as soon as it is in good working order, harrow lightly and sow two bushels of peas per acre; immediately plow from four to six inches, so as to cover the peas at least four inches deep. Wait a week and sow one bushel per acre of oats, and give a thorough harrowing. This will leave the peas deep in the

soil and the oats near the surface, just as it should be; it will not injure the peas, will kill all weeds that have started, and will give each an even send-off to insure the largest yield. It is a good plan to roll the ground after the oats are harrowed, as it will leave it smoother for the harvesting. Soon after the peas get beyond the eating stage, and while still green enough so that the pods will dry down holding peas, cut the crop with a mower, and, when cured so they will not mold, but not enough so as to lose the leaves, put them into cocks of two hundred or three hundred pounds, and after a week of good curing weather they can be simply aired out and put into mows; or they can be put into good-sized stacks without cooking, but the stacks should be topped, or capped, with any cheap hay or swamp grass, put on when not more than half cured; otherwise they will wet half through, and much will be spoiled. This crop may be threshed with a machine, but for sheep feeding it will be better to feed without, if the sheep will eat everything clean, and the farmer can feed according to his judgment and the haulm

will not be broken. To cure a sty take the white of an egg on a saucer and rub into it a small piece of powdered alum. It will become a curd. Put it between two pieces of muslin lawn and bind it over the eye before retiring for the night. In the morning the sty will be gone or much better. One more application will be sufficient and no more sties will
